## Market Review

FBM KLCI fell 58 points (or 3.6% MoM) in January 2020 to close at 1,531 points, its lowest level in eight years. The weak start was mainly driven by fears over the spread of the novel coronavirus from Wuhan, China, to a growing number of countries worldwide and its impact on the global economy. World Health Organisation declared the novel coronavirus outbreak a global health emergency on 30 January 2020, acknowledging the risk the virus poses to countries beyond its origin and the need for a more coordinated international response. Also impacting the FBM KLCI performance could be the earlier-than-expected 25bp cut in Overnight Policy Rate by Bank Negara Malaysia on 22 January 2020. This was done amid concerns over Malaysia's economic growth from external and domestic risk factors. Foreign investors remain as net seller in January 2020 with a net foreign outflow of RM138million in equity. Nonetheless, FBM Emas Shariah registered lower decline of 3.3% MoM in January 2020.
