Fund Objective

The Fund seeks to achieve capital appreciation and income distribution by investing in equity and equity-related securities that comply with Shariah requirements.

Note: The primary focus of the Fund is to offer capital growth.

Market Review

In May, FBMKLCI gained 4.7% and FBM EMAS Shariah Index up by 10.4%, driven by liquidity in the market and also thanks to the share price rallies in the glove players and pick-up in retail interests. The glove manufacturers' spectacular rise has single-handedly brought the indices into a bull market territory. 1Q20 results season featured fewer results announcements as companies chose to defer announcements until June. Generally more earnings disappointments than positive surprises with weakness mostly linked to aviation, consumer, property, most of the oil and gas segments and banks. Bank Negara Malaysia cut its benchmark interest rate by 50 basis points to 2%, the most since early 2009, as it seeks to bolster its newly reopening economy amid the coronavirus pandemic. Malaysia's GDP grew at a slower pace of 0.7% in the first quarter from a year earlier, better than expected in spite of the impact of the coronavirus pandemic on exports and domestic demand. Foreign investors net sold RM3 billion worth of Malaysia equities in May 2020, which was the 2nd month of Malaysia's MCO (since 18 March 2022). This brings the cumulative net sell to RM13.4 billion for Jan-May 2020, which has exceeded 2019's RM11 billion. Ringgit depreciated by 1% against USD to 4.35 in May, in line with other Asian currencies.
