

BSN DANA AL-JADID

Fund Objective

The Fund seeks to achieve capital appreciation and income distribution by investing in equity and equity-related securities that comply with Shariah requirements.

Note: The primary focus of the Fund is to offer capital growth.

Market Review

The FBM EMAS Shariah Index dropped 4.3% in May as the equity market react to Federal Reserve and subsequently Bank Negara tightening their monetary policy during the month. Window dressing activities on the last 5-trading days did not manage to recover the loss on the first half of the month. During this round of result season, out of 30 KLCI components, only 8 results were above expectation while the rest were below expectation, further underwhelming the market sentiment. Domestic market sentiment remains weak as investors remain on the sideline pending further domestic catalyst. On a year-to-date basis, FBMSHA dropped 6.1%.
