Fund Manager's Review

For the period ended 31 January 2020, BSN Dana Shariah Money Market registered an annualised return of 3.18%, as compared to its benchmark's return of 2.29%, thus outperformed its benchmark by 0.89%. For the period under review, the dividend declared was at RM0.002.

At its meeting on 22 January 2020, the Monetary Policy Committee (MPC) of Bank Negara Malaysia decided to reduce the Overnight Policy Rate (OPR) to 2.75%. The adjustment to the OPR is a pre-emptive measure to secure the improving growth trajectory amid price stability. At this current level of the OPR, the MPC considers the stance of monetary policy to be appropriate in sustaining economic growth with price stability. Investment activity is expected to record a modest recovery, underpinned by ongoing and new projects, both in the public and private sectors.
